**Time to Renew Jag Club Membership for 2022**

*Submitted by John Baxa*

A portion of our club membership dues goes to support the national umbrella organization, Jaguar Clubs of North America (JCNA) as well as your subscription to their bi-monthly magazine. The JCNA Board of Directors has decided to increase that portion by \$10.00 per membership for calendar year 2022; however, our local club's board has decided to absorb this increase and our membership dues will remain the same at \$54.00. While national membership has fallen off in recent years, our local club has maintained our strength, even increasing our numbers somewhat.

The 2022 membership dues for NGJC of \$54 are due by January 1. If you are going to renew your membership for 2022, please mail your dues by the middle of December. If you know you are not renewing, a quick e-mail to John Baxa [jwbaxa@mindspring.com](mailto:jwbaxa@mindspring.com) would be appreciated so that our e-mailing of the roster to JCNA will not be delayed. We have to send a roster to JCNA with dues payments for each member on

the roster in early 2022 so it is very important that we have all our dues collected by January 10.

There are now three ways to pay: by check, major credit card, or by PayPal. Please note that you do not need to have a PayPal account to pay by credit/debit card. If paying with PayPal or credit card, please go to [www.ngjc.us](http://www.ngjc.us) and click on the Membership tab at the top of the page and follow the directions.

If paying by check, please make your check payable for \$54 to the North Georgia Jaguar Club and mail it to John Baxa, VP Membership  
1250 Lake Charles Drive  
Roswell, GA 30075

If your payment does not reach us by January 10, you will be dropped from the renewal roster which we send to JCNA. If you rejoin later, we have to reinstate your membership which takes the time of people who are doing all this voluntarily. Do your part and make your payment when you read this.

**Election Of Club Officers For 2022**

In anticipation of our meeting, we present a recommended slate of officers to be voted on by the club's membership. Nominations apart from this list can also be made for the various individual club offices. As you can see, we have some open positions and we welcome anyone

who would like to participate—it is a great way to get more out of your club membership.

## Jaguar Land Rover's Busy Bees Gather First Honey Harvest

From Jaguar Land Rover Media

Jaguar Land Rover employees at Solihull are producing honey as well as vehicles, with the first harvest from their on-site hives.

Volunteer employee beekeepers have been caring for

three hives in an apiary which has become home to around 150,000 bees since being installed in 2019. The project is intended to support wellbeing and promote environmental benefits.

Employees at Solihull also hosted children from nearby nursery, Busy Bees Discoveryland (a work based nursery for JLR employees only), helping them learn more about bees and how to look after them. The honey bee project is part

of a wider employee-led initiative to establish apiaries across Jaguar Land Rover's UK sites.

The global Covid-19 pandemic has highlighted the importance of being outdoors for mental and physical health. Mental health charities recommend spending time in green spaces, while the Government

has announced additional funding for Green Social Prescribing – nature-based activities such as beekeeping, to achieve positive mental wellbeing.

Dean Clarke, who works at Solihull and is a volunteer beekeeper at the plant, said: "It feels amazing to have collected our first harvest and to know the bees are happy and healthy in their new home. "Beekeeping is brilliant for your mental health and wellbeing – as well as being great for the environment – so this is just the first step in our mission to providing a home for a million bees across all Jaguar Land Rover sites."

Jaguar Land Rover Solihull has more than 13 acres of woodland and grassland. Earlier this year the plant marked 'No Mow May' by allowing grassy areas on the site to grow, to encourage wildflowers and provide food for pollinators.

# NGJC Concours d'Elegance Sunday, October 31st

Submitted by John Baxa

It was great to get back to our usual Concours location after last year's storm damage interrupted our plans with little time to arrange an alternate site. Thanks to Chattahoochee Country Club hosts Roy and Linda Cleveland for helping to arrange this year's event and luncheon. Also thanks to Terry Mathewson and Philip DiTrolio and all of the other volunteers for their efforts to pull off a seamless event. We were fortunate again this year that the clouds parted and the skies got sunnier as the day moved along.

# Three Funny Things Are Happening At Jaguar Land Rover At The Same Time

*A new Range Rover, struggling EV sales, and buying emissions credits from Tesla*

*By Raphael Orlove, Jalopnik*

Jaguar Land Rover had a pretty good plan: if it was making money off of its SUVs and crossovers, and it needed to lower its emissions, it could just sell a bunch of electric SUVs and crossovers. Problems crop up, though, if nobody buys them.

## I Guess I'm Just Very Curious About The I-Pace

I should say that the more I read about Jaguar's stuttering EV plans, the more curious I am about driving one. I mean, an I-Pace can't be bad, can it? It's a luxurious all-electric big hatchback thing, with interesting styling and plenty of range. For whatever reason, it hasn't really been enough for JLR, as the Financial Times reports:

"UK carmaker Jaguar Land Rover has joined a scheme with electric rival Tesla to help it meet European emission rules and avoid fines.

"Under the arrangement, JLR and Japan's Honda are paying to pool emissions from their vehicles with Tesla's battery cars, helping them lower their average figures, official documents show.

"Under EU rules, carmakers selling in the region have to stay below average CO2 emissions limits or face fines. Rival groups are allowed to pool their emissions to help companies struggling to comply.

"JLR's decision to pool emissions with Tesla is an admission it will not be within the EU limits this year. It missed its CO2 targets last year and paid a £35m fine.

"This year, it has been hampered by poor sales of its electric Jaguar I-Pace, as well as a significant hit to production from the global chip crisis.

It's funny that JLR is announcing this at the same time that it's trotting out a new gas-sucking Range Rover. An EV RR is coming, but it's not here yet.

It's also worth noting that Jaguar was meant to have an all-electric XJ out by now but went back to the drawing board right before production.

The I-Pace was one of the first big, glitzy mainstream competitors to Tesla. That Jaguar is now buying credits from its rival, well, I wouldn't say it's a failure but it is definitely not a good look.

## Here's The Latest On NGJC Merchandise

*Submitted by Philip DiTrollo*

I have recently taken over club merchandise from John Hoffman. The first item we will offer will be name badges. I will place orders on an as-needed basis. The cost is \$15.00 each, and the badges will include your name, along with our club logo, and attach using a magnetic clasp. When ordering, provide your name as

you would like it to appear on the badge.

As many of our current suppliers are experiencing delays, we will not be able to offer other items (e.g. shirts, hats) at this time; however, let me know if there are certain items you would like to see. We could offer some interesting items on a limited basis, alongside

other stock items.
